

## **WARNING! - Please Read this Information Carefully:**

The project described in these pages utilizes **POTENTIALLY FATAL HIGH VOLTAGES**. If you are in any way unfamiliar with high voltage circuits or are uncomfortable working around high voltages, **PLEASE DO NOT RISK YOUR LIFE BY BUILDING THEM**. Seek help from a competent technician before building any unfamiliar electronics circuit. While efforts are made to ensure accuracy of these circuits, no guarantee is provided, of any kind!

**USE AT YOUR OWN RISK:** THE WEBMASTER, PROJECT COORDINATOR, PROJECT CONTRIBUTORS AND WEB SPACE PROVIDER EXPRESSLY DISCLAIM ALL LIABILITY FOR INJURY OR PROPERTY DAMAGE RESULTING FROM THIS INFORMATION! ALL INFORMATION IS PROVIDED 'AS-IS' AND WITHOUT WARRANTY OF ANY KIND.

## **COPYRIGHT AND INTELLECTUAL PROPERTY NOTICE:**

The content of this document is protected by the copyright laws of the United States of America and the international copyright laws and agreements.

Except where specifically noted, Cliff Chappell or Chris Hurley owns (or has permission to use) all intellectual property rights in relation to this document and its content (including, but not limited to, all trademarks and copyright).

Except as permitted below, no part of the document may be reproduced, displayed, copied, translated, adapted, downloaded, broadcast, used or republished in any form including (without limitation) distribution, or storage in a system for retrieval.

Permission is granted to electronically copy and to print in hard copy portions of the document for the sole purpose of using the document, and the information contained therein, as a private non-commercial information resource, provided that all copyright notices are included and no alterations or additions are made to the content.

Any other use of material in the document, including reproduction for purposes other than those noted above, modification, distribution or republication without the prior written consent of Cliff Chappell or Chris Hurley is strictly prohibited. No part of the document may be distributed or copied for any commercial or public use without the prior written consent of Cliff Chappell or Chris Hurley.

## **GENERAL NOTES:**

This project is in the **PRELIMINARY STAGES** and is not intended to be built except by **very experienced builders**. These documents have not been extensively debugged, and as such may contain serious errors. Once this project has been officially prototyped and debugged a general release of these documents will be made.

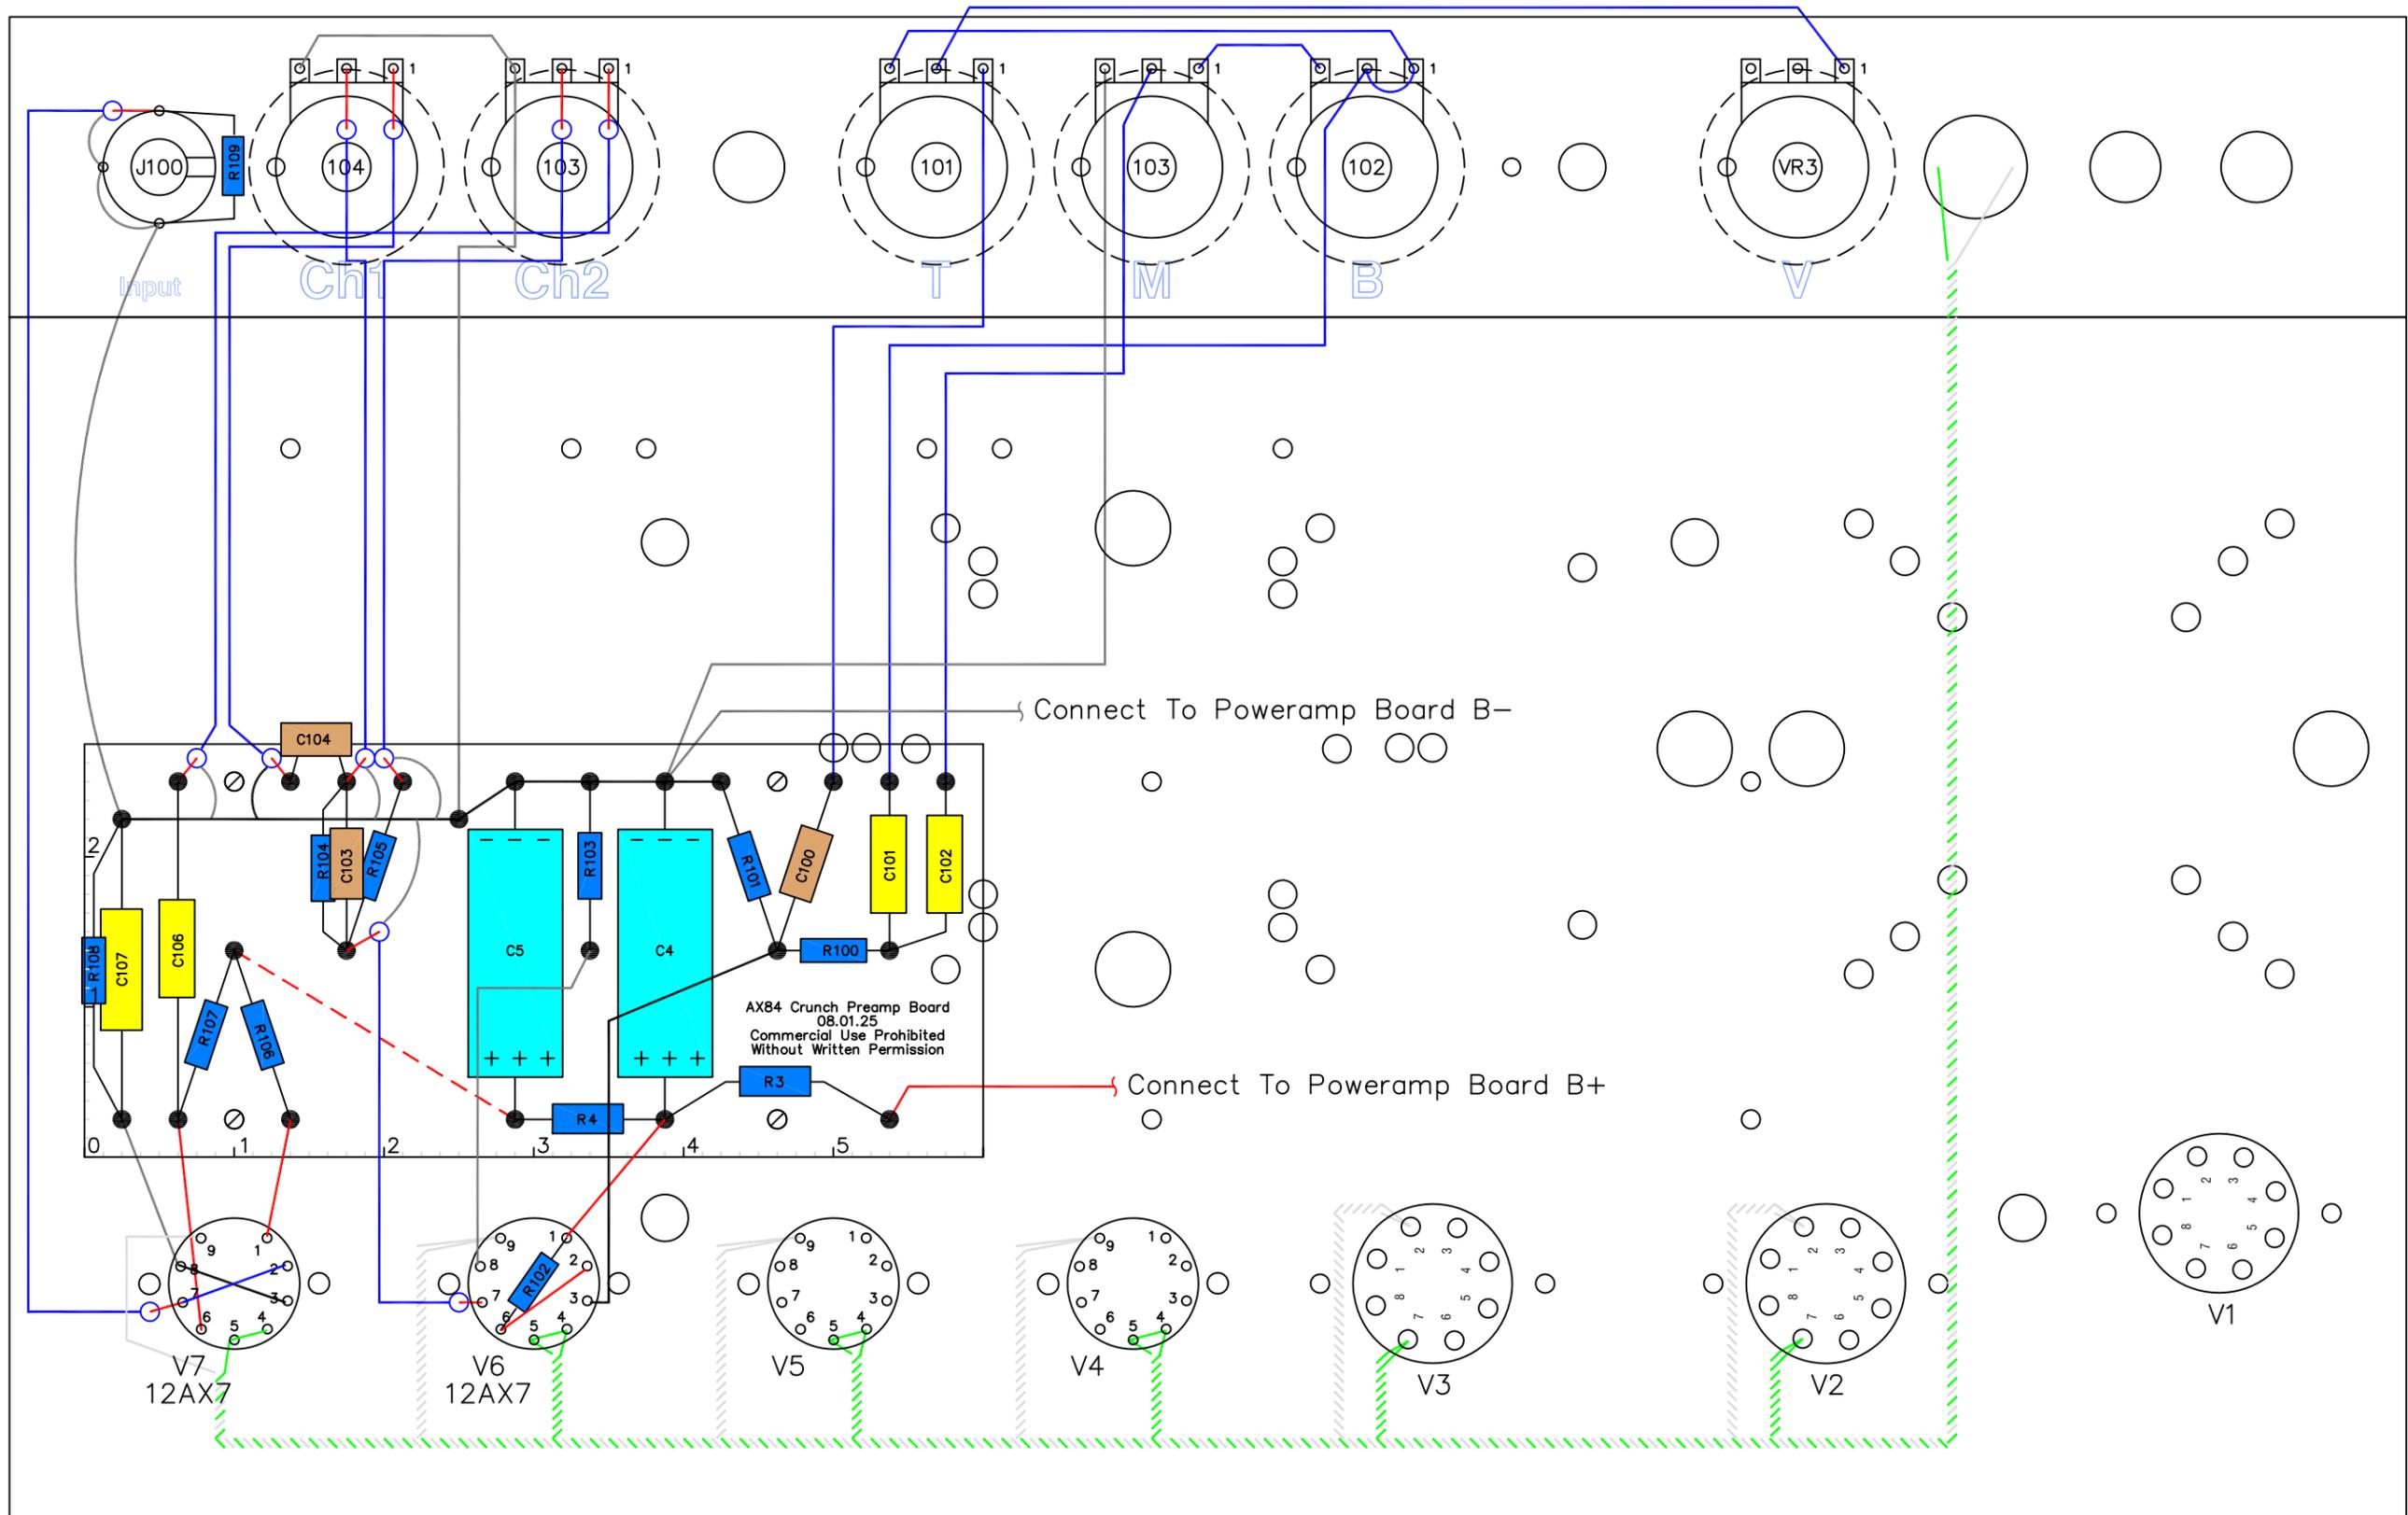

## **CORE CHASSIS DRILL PLAN:**

**The chassis drill plan is common to all of the AX84 core series amps. Not all holes are used in all amps. You may want to drill all of them if you plan on upgrading, or modifying the amp in the future.**

**The chassis hole sizes and locations on these plans are correct for the components used in the construction of the prototype amp. At the current time, not all of the amps have been prototyped, so the size, number, and location are subject to change.**

**It is the builder's responsibility to insure that the hole sizes, numbers, and locations are correct for the parts used in their own build.**

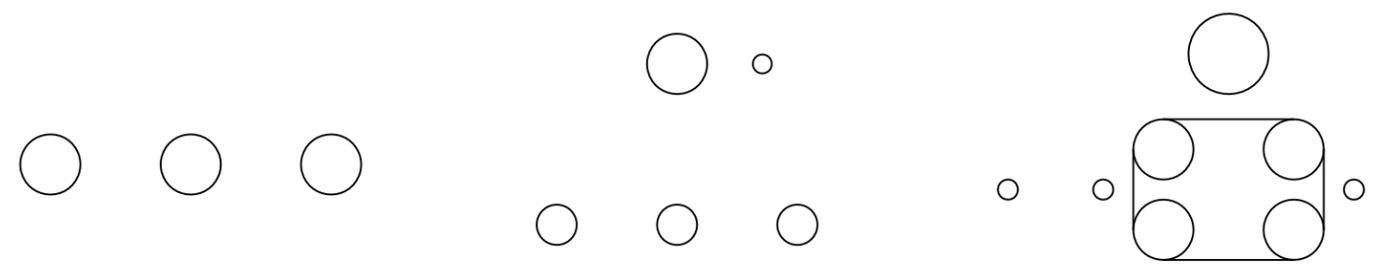

**Do not assume that the parts you ordered individually, or bought as a kit, have the same dimensions as those used in the construction of the prototype amp.**

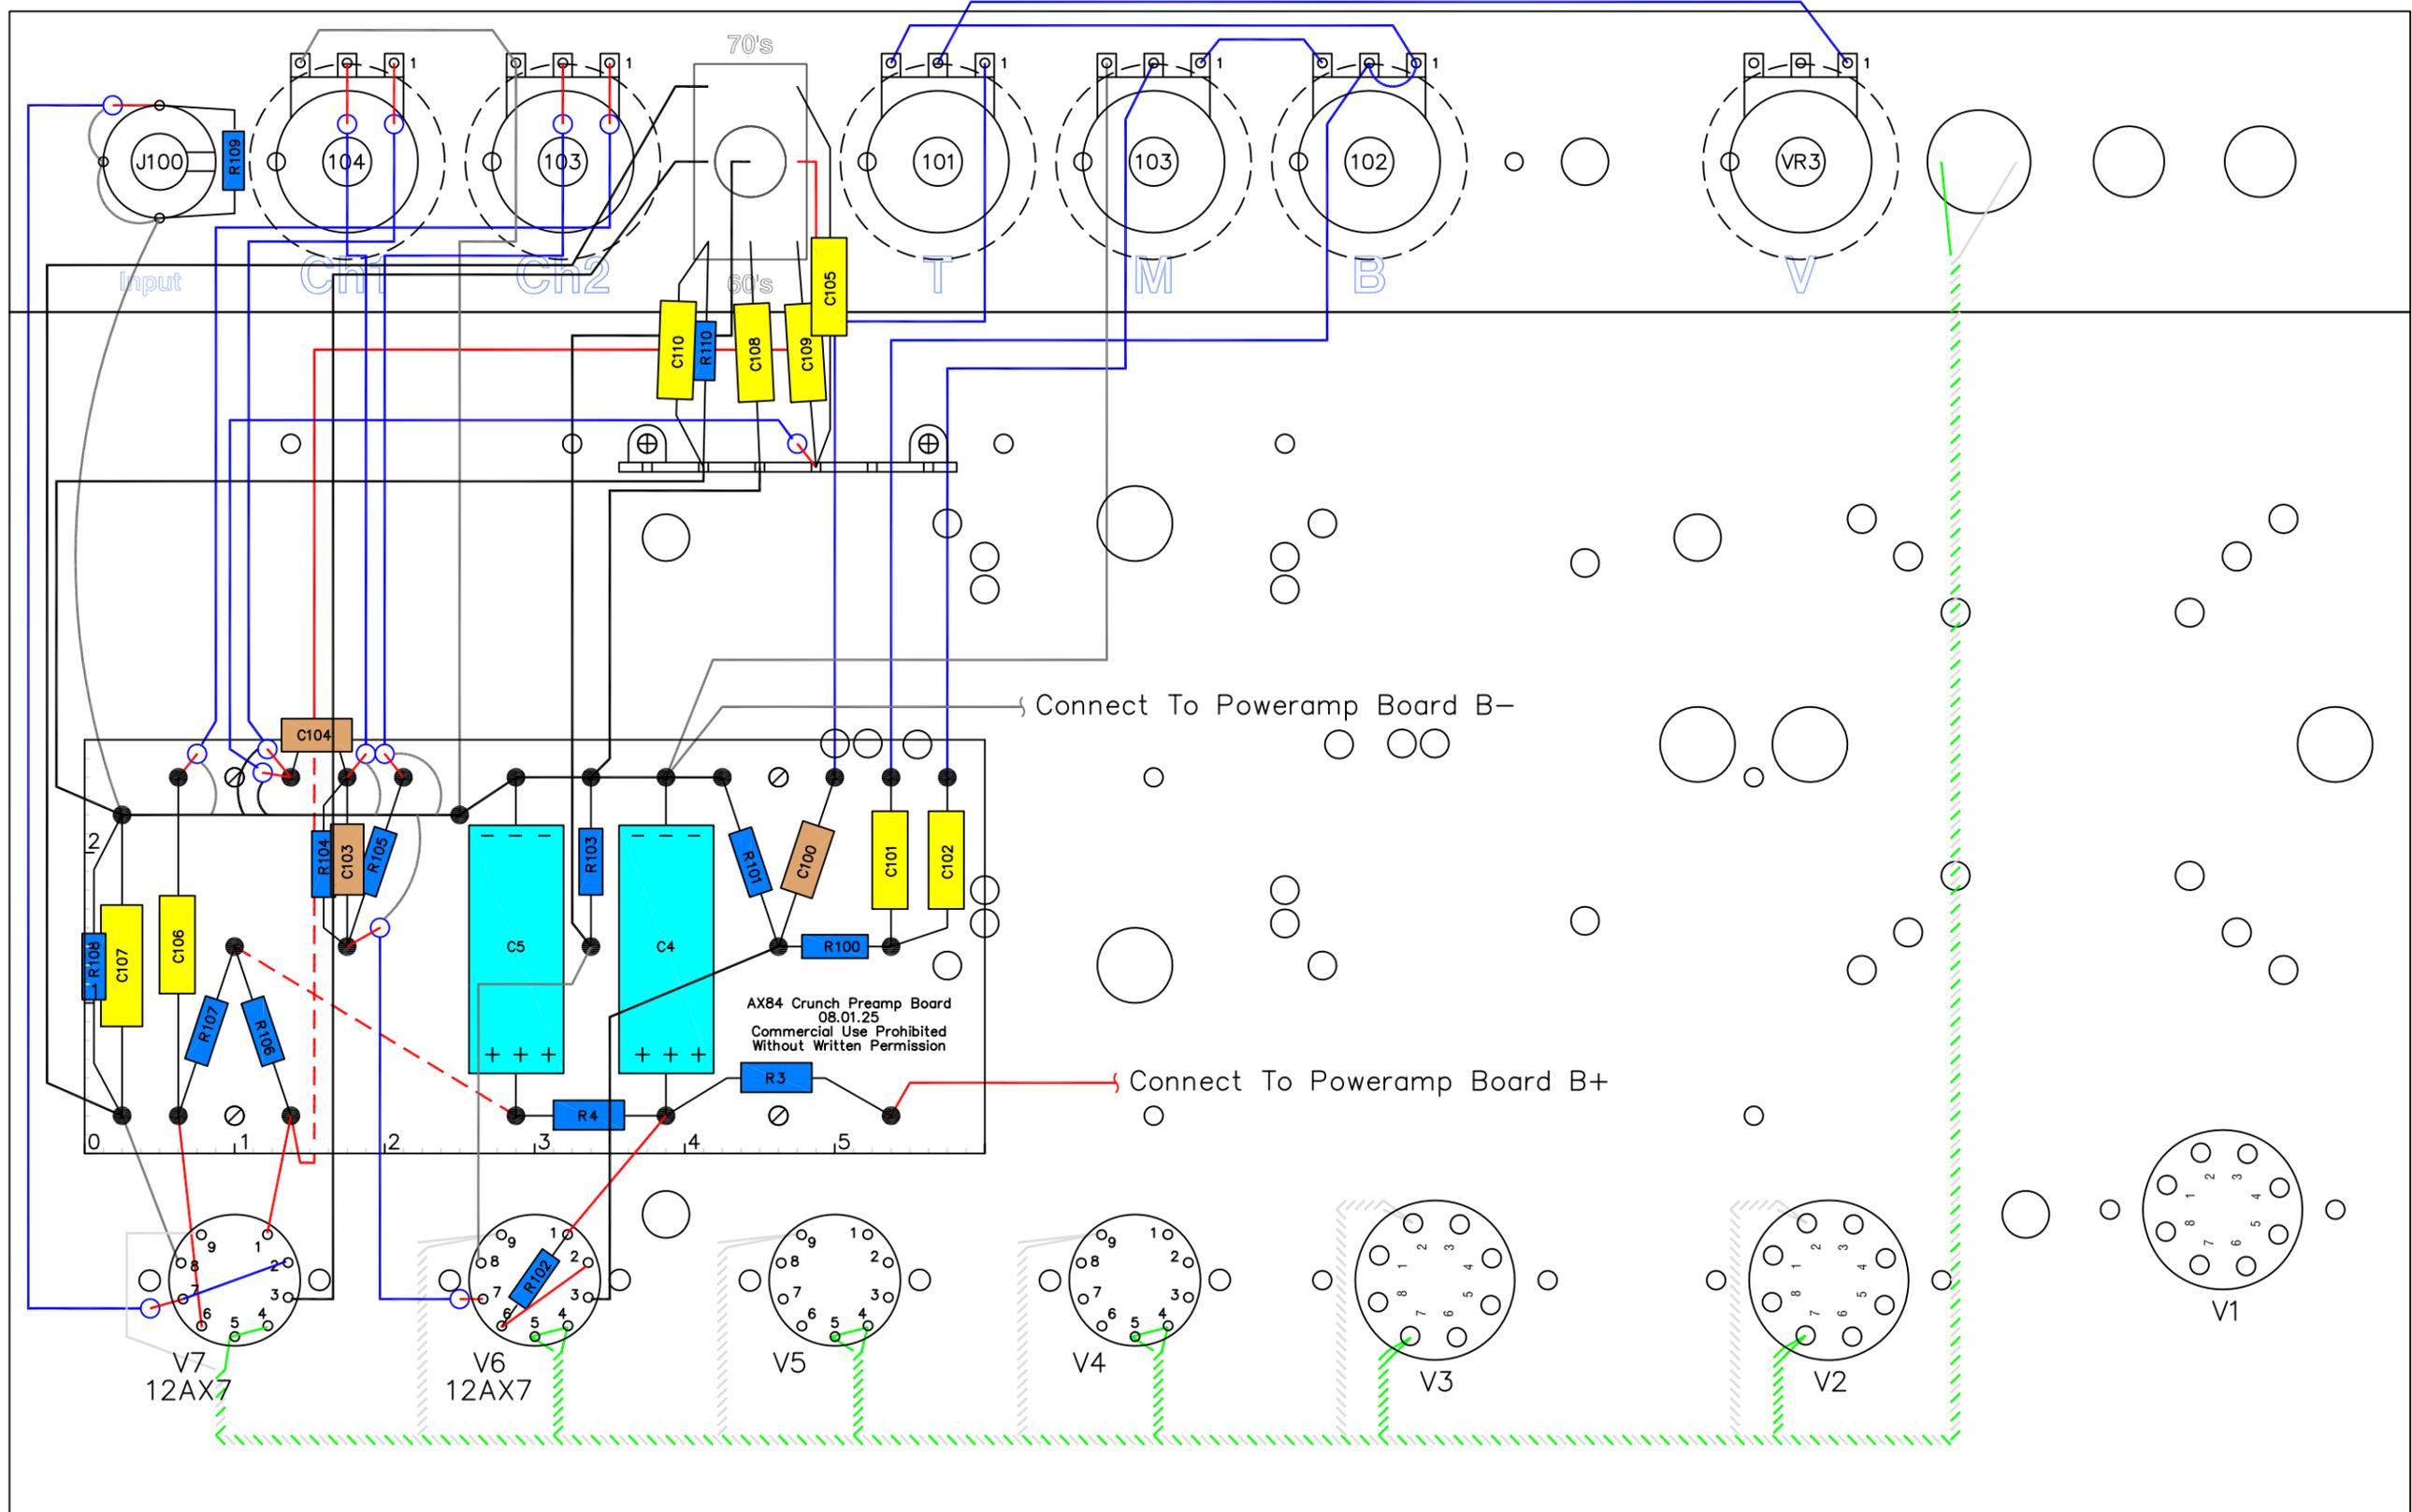

**AX84 Core Crunch Preamp 08.01.25**

**AX84 Core Chassis 07.08.05**
